

FDA Docket No. 00P-1211/CP1.

Dear Sir or Madam,

There is enough disagreement in the scientific community as to whether there is a significant difference in GE foods, and what effect those differences may have on my health and the environment.

“History informs us that though we love technology, there are always costs, and since our knowledge of how nature works is so limited, we can't anticipate how those costs will manifest. We only have to reflect on DDT, nuclear power, and CFCs, which were hailed as wonderful creations but whose long-term detrimental effects were only found decades after their widespread use.”

I do not know if genetically engineered foods are safe, and neither do you. Please act for the benefit of consumers, and not the large biotechnology companies, and allow me my freedom of choice.

Sincerely,

Sincerely,

Name Lisa Farino Signature Lisa Farino
